# MARGARET BRITTON

FRONT-END WEB DEVELOPER | REACT DEVELOPER

## ABOUT ME

I'm a front–end web developer with a background in music theory and a passion for making the web both functional and beautiful. As a student at Nucamp, I designed and coded two complete responsive websites primarily using HTML, CSS, JavaScript, and React. I am eager to tackle new challenges and continue honing my skills to produce even better user interfaces.

## EXPERIENCE

### Adjunct Professor at Luther College; Decorah, IA – 2012–2021

- Planned and taught Musicianship Workshop, Music Theory, and Ear Training courses.

- Collaborated with music faculty members to ensure a uniform experience for music majors throughout the music theory and ear training sequence.

- Met regularly with students during appointments or office hours to provide assistance with course material.

### Cashier at Oneota Community Co-op; Decorah, IA – 2015–2016

- Checked out merchandise, answered customer questions, and worked with fellow employees to keep the store clean and organized.

### Proofreader at Hal Leonard; Milwaukee, WI – 2010-2012

- Proofread guitar, ukulele, and harmonica manuscripts for accuracy in music notation and accompanying text.

### Graduate Teaching Assistant at UT Austin – 2011–2012

- Taught Aural Skills I and II.

- Met individually with students once a week to assess and provide constructive feedback about sight reading, rhythm, and piano skills.

## PROJECTS

### Anywhere Montessori School

- Designed and built a responsive website for a fictional school, including information about the school, philosophy, and teachers, and contact and application forms using HTML, CSS, and Bootstrap.

### Toy Lending Library

- Designed and built a responsive website for a fictional toy lending library, including information about the business, a filterable toy inventory, and a membership form using React, Reactstrap, Bootstrap, CSS, Formik, Yup, and Framer Motion.
